This particular model has spent roughly the last 10 years tucked away in a private collection preserving it's very low mileage, recently it has undergone a resoration service including all fluids, filters, carburettor cleaning, compression tests, and tyres. Crucially, it retains its rare original factory rear mudguard, still proudly sporting the original supplying dealer sticker behind the number plate with matching data to the VIN plate.

Cosmetic Condition

Bronze & Graphite - being this model's most sought after colour scheme.

Presented in its honest, original factory paint. Because it remains entirely unmolested and there are various minor, age-related cosmetic blemishes. These include some small scratches in the paint and plastics,

alongside tiny rust swirls. The aluminium swingarm has some flaky paint, which is typical for the age but entirely superficial with no structural rust. There is a 'dent' in the end can from previous owner as shown in pictures.
